Adjustment to the Contract Size of USDS-Margined ANTHROPIC Pre-IPO Perp and Symbol adjustment (2026-11-17)

This is an Exchange Notice for the purposes of the Exchange Rules and a Notice for the purposes of the Clearing Rules. Products and services referred to here may not be available in your region.

1. Binance RCH will adjust the Contract Size of USDS-Margined ANTHROPIC Pre-IPO Perp (the "**Adjustment**") commencing at 2026-11-2026-11-17 12:30 (UTC+4) (the "**Rebase Commencement Time**").

2. The Adjustment is expected to commence at the Rebase Commencement Time and complete at 2026-11-17 15:00 (UTC+4) (the "**Rebase Completion Time**"). At the Rebase Commencement Time, Binance RIE will declare a Suspension Session State in respect of the Contract in accordance with Rule 100.3(d) of the Exchange Rules, trading will be suspended and all open Orders, including Reduce Only Orders, will be cancelled. If the Adjustment takes longer than expected to complete, a separate Exchange Notice and Notice will be issued.

3. Following the Rebase Completion Time, Binance RIE will declare a Cancel Only Session State in accordance with Rule 100.3(g) of the Exchange Rules during which Participants may only cancel existing Orders but may not Place new Orders (other than Post Only Orders). This Cancel Only Session State may last up to 5 minutes after the Adjustment is complete.

4. The terms of the Adjustment can be found in the table below:

Rebase Event Trigger	The Underlying Asset Issuer filed a subsequent Initial Public Filing, which disclosed the number of Shares that will be offered in connection with the IPO (Amendment No.2 to Form S-1 Registration Statement (the "**S-1/A-2**")).
Estimated share count prior to Adjustment	1 billion.
Estimated share count following Adjustment	13,116,075,288 shares. This number is derived from the amounts disclosed in the S-1/A-2, including Class A common stock and Class N common stock.
Adjustment scale factor	13.116.
Symbol adjustment	The Symbol of the Contract will be amended from "ANTHROPICUSDT Perpetual" to "ANTUSDT Perpetual".

5. The adjustment scale factor is the ratio of the estimated share count following the Adjustment to the estimated share count prior to the Adjustment. The Contract Size in respect of all existing

Positions will be multiplied by the adjustment scale factor referred to in paragraph 4, and the Mark Price will be correspondingly adjusted, so that the Position Value of each Participant's Position is maintained.

6. The revised estimated share count is based on the amount disclosed in the S-1/A-2. The actual share count might be different if the Underlying Asset Issuer issues an updated estimate of the number of Shares to be admitted to trading. Binance RCH may further adjust the Contract Size when a new proposed share count is available. A separate Notice will be issued if Binance RCH makes any further adjustments to the Contract Size.

7. In connection with the Adjustment, Binance Exchange Company hereby also gives notice that the Contract Specifications will be amended in respect of USDS-Margined ANTHROPIC Pre-IPO Perps with effect from the Rebase Completion Time to reflect the adjustment to the Symbol referred to in paragraph 4.

8. In addition, certain trading parameters specified in the Contract Specifications were amended on 2 June 2026. The specific Trading Parameters amended are set out below and amendments will be made to the Contract Specifications to reflect such amendments:

Affected Trading Parameter	Previous Value	Amended Value
Max. Market Order	200	600
Max. Limit Order	2000	6000

9. Paragraph 17 of the Contract Specifications will be amended to remove references to Procedure 51A.2 of the Clearing Procedures, which has been removed from the latest version of the Clearing Procedures. Until a Pre-IPO Transition Notice is issued by Binance RIE in accordance with Procedure 238A.1 of the Exchange Procedures, the Mark Price for Pre-IPO Perps is determined in accordance with Procedure 51A.1 of the Clearing Procedures.

10. This information is released in accordance with Rules 90.2 and 96 of the Exchange Rules, Rule Rule 168 of the Clearing Rules, Procedure 35.9B and 36 of the Clearing Procedures and paragraph 20 of the Contract Specifications .

***Disclaimer**: Digital asset prices can be volatile. The value of your investment may go down or up and you may not get back the amount invested. You are solely responsible for your investment decisions and Binance is not liable for any losses you may incur. Pre-IPO Perps are subject to high market risk and price volatility. There may be particularly high volatility following official listing and the price may remain lower than the final IPO price. There is no guarantee that the*

IPO in respect of the Underlying Asset Issuer will proceed. You may be called upon at short notice to make additional margin deposits or interest payments. If the required margin deposits or interest payments are not made within the prescribed time, your collateral may be liquidated. Moreover, you will remain liable for any resulting deficit in your account and interest charged on your account. All of your margin balance may be liquidated in the event of adverse price movement. Past performance is not a reliable predictor of future performance. Pre-IPO Perps do not represent ownership of the relevant Underlying Asset. Pre-IPO Perps are not associated or affiliated with, or sponsored or endorsed by, the Underlying Asset Issuer. Before trading, you should make an independent assessment of the appropriateness of the transaction in light of your own objectives and circumstances, including the risks and potential benefits. Consult your own advisers, where appropriate. This information should not be construed as financial or investment advice.
